SEWING MACHINE
We would call attention to the following facts in connection with this Machine, which renders it superior to any other in use:
It forms a flat elastic seam which will not rip in wear, It is strictly a "lock" seam;
A patented device prevents its being turned backward;
The needle cannot be set wrong;
Can be used successfully without other instruction than accompany the Machine;

Idaho News

The Soda Springs correspondent of the *Statesman* says The cash valuation of the property of the citizens of Deep Creek amounts to about $1 000, while that of Soda Springs is nearly $30 000

REPORT OF THE GRAND JURY OF IDAHO COUNTY

The following are extracts from the report of the Grand Jury of Idaho county as published in the *World* of the 3d inst

"We have found and presented to the Court the following bills to wit

For murder in the first degree one assault with intent to kill one, embezzlement five Total seven

We have found that the expenses of the county government, the maintainance of its Hospital and Jail and the large amount of criminal business have enfolded upon the county an enormous debt, amounting in the aggregate to near $100 000 and bearing interest at the rate of ten per cent per annum We find the credit of the county to be in utter ruin its certificates of indebtedness scarcely worth the paper upon which they are written, an empty treasury

We have found that some of the county officers elected to offices of honor and trust, have betrayed the confidence reposed in them by the people, and have converted the funds of the county to their own personal gain and to the advancement of their individual interests

We regret that we cannot give a satisfactory account of the County Hospital The condition of this institution is at present such as to demand from the citizens of the county and the public prompt and immediate assistance A proposition has been made to the Board of Commissioners for the keeping and support of the indigent sick for a period of three months from the 25th of January last at the rate of twelve dollars per week for each patient, payable in gold dust and to be settled by the county at the end of each quarter,

"It is estimated that the cost of maintaining the County Hospital under the late proposition would be $10 000 a year Under these circumstances we are at a loss to give any advice or suggest any remedy If immediate attention and help is not rendered by the public, some sixteen patients four of whom are insane will be thrust upon the cold charities of the world We would request of the people, under the circumstances, to come forward and contribute, each according to his means to the relief and assistance of these sixteen unfortunate fellow human beings"

ALTURAS ITEMS

—The Empire State is a new discovery in the Yuba district, which gives promise of being one of the big things of that country Some men built a cabin and in digging for clay to build a chimney struck the ledge They have it four feet wide without reaching the opposite casing, and the rock is sprinkled with visible gold

Dr Harris cleaned up $5,000, the product of twelve days run Rassy Bivon has reached the depth of two hundred and twenty-five feet with his tunnel Snow at Rocky Bar is about five feet deep, and melting

They have had a little jumping and a shut gun possession up there after the style of the Poor Man of last fall Original claimants of the allowed the time to "represent" it, to nearly run out when other parties "jumped" a portion of the ground Original holders commenced work relying upon shot guns for defence Next day jumpers advanced with superior force and more numerous shot guns, and drove away the first party, and no matters stand at present

Messrs Jacobs and Clemens came down from the Bar, arriving yesterday, were obliged to come over half way on foot They believe it will be a month yet before animals can go in. Most articles of provisions are in sufficient supply to last that length of time Times are dull and many talking of going to Blackfoot.

The word from Volcano is that the Defreez & Baker mill, is prevented from running at present from want of wood, but they will soon get a supply though roads have to be broken through deep snow to the timber The mill will be at work on O R rock as soon as possible, the first trials of which proved entirely satisfactory, as we have before mentioned.

Judge Higby, of Raby City, writing from the East, says "I saw Major Bidwell when in Washington, and he says there shall be a line of stages running from Chico to Raby City this summer if he lives" The Major is thoroughly interested in the matter, and has been for over a year, and there is every reason to hope that a mail contract will be let for the route at an early day But of what use are stage lines and contracts if the Indians be not quieted? That regiment of troops whiling away the time at San Francisco are needed up this way. The devilish red, skinners are thoroughly hostile all through the country between here and the Sacramento river, and we do assure everybody interested that very little can be accomplished in the way of staging until they are thoroughly cleaned out Better take a square practical view of the case and go to work at it in earnest.

Business is more than commonly dull, which is easily accounted for It is too early for the placer mining to yield any return, and too early for any considerable trade with outside camps It is even impossible to get animals into South Boise in consequence of the snow, so there is no business at all going with that section of the country including the Volcano and Yuba districts. The business of Alturas county will, this year, greatly exceed that of any former one, as the success of the mills there, during the winter, has already established a better confidence in her mines Farmers of the valley are all at work plowing and sowing Arrivals of goods during the week have been very light. Flour has come down two dollars a hundred during the week—$18 and $25 being the regular jobbing prices yesterday. The market is well stocked for the spring trade To hance is scarce. Hay comes down ten dollars a ton this week, because all animals, except teams in use, are on good grass

Judge Gillespie has at the Gem Saloon what a dry looking cuss on the corner calls "the bone of contention" That's a "gusk" But the bone is not a jusk It was found in the sand stone quarry just above Fort Boise, by Mr Harris yesterday, while digging for building stone The bone is in a state of petrifaction, though it appears to have been first decayed to some extent It measures two feet in length and four and a half inches in its largest diameter From appearances the entire bone must have been from seven to ten inches longer when it was whole There is an opportunity for our naturalists to build in fancy, the framework of one of the behemoths that roamed this country at a period which enabled him to leave the bone of his fore leg in the sand stone of Idaho

A part of the expedition that went from Owyhee after the Indians returned last Sunday and they are all expected in soon They have learned, after trying it what everybody knew before, that nothing can be accomplished in fighting Indians unless the men are well mounted

The process of thinning out the family of Lo hereabouts has commenced in good earnest Report was current on the streets Sunday afternoon that there were fifteen good Indians' rendered permanently possessable up the river, near the mouth of Moore's creek From all we could learn we think it is true One man said he saw six bucks lying still in one stack and further deponent sayeth not

Rebel Fun

—The officers of the United States forces stationed in Virginia recently gave a ball in Richmond and invited the attendance of many Virginia ladies. Some saw fit to attend, others to stay away, as it was their perfect right to do. The *Richmond Examiner* had an account of this ball which held up every lady thus attending to scorn and loathing, as recreant to the memory of her dead kindred; false to her native State, and callous to every noble impulse A more unmitigatedly traitorous and fiendish article has rarely appeared; and General Terry commanding in Richmond, after counseling with General Grant, felt constrained in the interest of peace and loyalty, to suppress the *Examiner* The editor came to Washington and persuaded the President to overrule Gen Grant and let him resume his issues. To effect this, he told the President that the "gush of the ball" was written by a local reporter, and, without my (Pollard's) knowledge, and *really in the spirit of fun*" Now, as the *Examiner* made a boast that the report had sold its entire edition, and that copies could no longer be furnished, we must think that its conceptions of verasity seem about on a par with its notions of fun The fun evinced in the ball report is exactly that which battered Major

OFFICIAL PAPER OF THE STATE.

SATURDAY MORNING, MARCH 24, 1866.

A Daniel Come to Judgment.

Dan. Voorhees of Indiana, a Copperhead chieftain of that State and one of the principal leaders of that band of conspirators known as the "Knights of the Golden Circle," delivered a characteristic speech in Congress in January last, only a few days before he was ousted from the seat which he had obtained by fraud, corruption and Democratic finesse generally. The text on which Dan. laid the foundation of his last Congressional harangue was this: "Peace and obedience to law are the only guarantees for the future which any Government can require of its people." It is hardly necessary to mention that Dan. is an ardent admirer of President Johnson's "reconstruction policy." It was he who introduced in the House a series of resolutions strongly commending and sustaining that miserable shilly-shally policy of Johnson's which has settled nothing except that traitors are as good as loyalists, and which has accomplished to considerable results except to bring the authority of the law and the majesty of the nation into contempt among a people who should have been taught to respect a Government they had not power to destroy. Dan's speech, it must be owned, is a brilliant specimen of Copperhead genius—a wonderful emanation of the Democratic intellect. It was made in the endeavor to show that the mere abandonment of the war by the rebels and the determination of the rebel inhabitants to resume political rights and powers under the Constitution entitle them to be restored at once to all their relations with the Government without having any restrictions laid upon them for their future good behavior. We are to have no assurances of future good conduct from the insurgent communities, except such as mere verbal promises can give; we are to place implicit confidence in the mere word of those who have once already added perjury to treason; we are to exact no conditions from the rebels which can be incorporated into our fundamental law, and which it will be criminal to violate. "We must trust the South," is the beginning and the end of the argument. That is to say, we must refuse to believe that the South ever really intended to divide the Union, and that as the Southern people have always been innocent of any treasonable project, so it is uncharitable and wrong to impute any design of this kind to them, either now or for the future.

If those who five years ago threw off and defied the authority of the Constitution, laws and Government, who discarded all official oaths and took an oath to support the government of the public enemy, who seized the property of the United States and deprived unoffending citizens of their rights, making persons who remained obedient to lawful authority alien enemies, and as such, liable to the penalties which attach to those in that condition, who overthrew and obliterated all government, who destroyed all constitutional forms, and violated all laws—if these persons are entitled at once to resume and exercise full political rights—if States composed of such populations can resume at once the high powers of States in the Union—if they can send Senators and Representatives to Congress who can rightfully demand to be admitted without conditions—then the Government is entirely at the mercy of those who originated the late war, so as to explode it into fragments. A third part of the Senate would come from the rebel States and be composed of rebels, and these persons by their united action could place in that legislative body which is most important for the maintenance of the Government.

As guarantees, we want not only obedience to law, but irrevocable constitutional enactments which shall place the future peace and security of the whole country on an enduring foundation. It is our right and our duty to provide by constitutional amendments against a repetition of the crimes which threaten us. The Constitution should not be altered on frivolous grounds, but as it is not absolutely perfect (as no human performance can be), it is folly to say that it should never receive any addition or undergo any change.

But Dan. Voorhees' idea of the sort of guarantees which should be required of the rebels does not differ greatly from that of President Johnson. The only difference is, the President has talked about substantial guarantees without purposing to exact them, while the Indiana Copperhead, thinking that the rebels have done no wrong, would place them under no disabilities and would not even talk of requiring guarantees for their future good behavior.

THE SNAKES IN COUNCIL.—The copper-snakes of Marion county met in council on Thursday, N. T. Caton, presiding orator. The den resolved in substance:

That we heartily endorse President Johnson's veto of the Freedman's Bureau bill and his restoration policy, and that we will support him in his efforts to maintain the Union against the fanatical majority in Congress, and all other enemies of the Government.

The following snakes were elected delegates to the Snake State Convention: Wm. Waldo, John F. Miller, Jacob Conser, Wm. H. Watkinds, W. J. Hawkins, G. S. Downing, C. B. Bellenger, M. Myers, J. A. Keys and E. C. Cooley. The den declared its preference for J. S. Smith as the Snake candidate for Congress. An attempt to declare John Fiddling Whiteaker the choice of the den for Governor, failed for want of votes. Nobody was named for county officers. The den will assemble itself again on the 10th of May.

Some of the snakes elected delegates, are rather of the milk-and-water stripe, but the most of them are as virulent haters of the Government as can be found in the State, and, but for policy's sake, would go the Columbia county resolutions, "Jefferson Davis" and all.

THEIR TREASON CONFESSED.—We never had a doubt of the treason of the Democratic party, North or South, but we had scarcely looked for so frank a confession of it as is contained in the following resolution, adopted by the Democratic convention of Columbia county, on Thursday last, and which we find in the *Oregon Herald*, the Democratic organ of the State:

Resolved, That we believe with Jefferson Davis, that the people are the best judges of their own grievances, and of the manner and mode of redressing the same.

So it appears this issue of the late infernal rebellion is to be revived. Columbia county has the honor of leading off in the movement, and the *Herald* has the honor of first publishing that part of the Democratic programme. But your honesty, gentlemen, in *openly* declaring your principles, is something admirable, if only for its impudent rashness. Your preaching and your practice are now likely to be eminently consistent with each other.

THE TRUE TEST.—The harmonious and unterrified Coppersnakes of the Dalles, at their precinct meeting on Thursday, got into an animated quarrel on the genuineness of Jo. Teal's democracy. Jo. had just been elected a delegate, when Vic. Trevitt moved to strike him off the list and to put on another man, averring that Joseph was not a reliable Democrat. After considerable discussion pro and con, the question was finally settled to the satisfaction of the whole crowd, by one Williams, who exclaimed, with indignation and emphasis:

"What, Jo. Teal not a Democrat? Has he not been a secessionist and rebel not a year since, and always been called a rebel? and he not a Democrat now?"

This was a clincher—a true test of Democracy, and no further objection was made to Jo. Teal.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MARCH 23.

Concerning the Mexican Loan Project.

Chicago, March 23.—The Washington correspondent of the Boston *Post* says, the new Mexican loan project should be thoroughly understood as it will most likely be reported back favorably by the committee and pass the House. The correspondent adds that three bonds, to the amount of fifty millions, have already been paid. They have in the market been sold in gross, five millions to a weekly combination now bent on carrying a resolution of guarantees through Congress in order to secure the magnificent revenue that must ensue. The combination will pay fabulous sums for lobby expenses, and it is proposed to give the scheme every semblance of legitimacy by giving so far as to secure the sanction of the Federal Government to equip several thousand men ostensibly for service in the cause of Juarez. These expenses paid, leaves a surplus of twenty-two millions, three millions will then be divided among the members of this gigantic struggle. It is the biggest lobby job of late years.

Removal of Headquarters.

FORT LEAVENWORTH, March 22.—On the 9th inst., the district headquarters were removed to Ft. Ray. The 13th U. S. infantry is in command at Ft. Leavenworth.

Col. Williams Insane.

Col. Williams, well known as Adjutant General of the army of the Potomac, has become insane and has been sent to the asylum at Augusta, Me.

Small Pox at the South.

The Charleston *Courier* says it is hardly possible to imagine the extent to which small-pox prevails throughout the entire South. In some places the blacks furnish the most victims, while in others the white population suffers most. No cure to prevent its spreading is paid in medical treatment. Those who have the disease walk through the streets in the most indifferent and unconcerned manner, in several of the large towns.

Congressional.

WASHINGTON, March 21.—In the Senate, Anthony, from printing committee, reported a resolution to print 5,000 copies of the special report of the Internal Revenue Commissioner. Mr. Hendricks asked if a minority report had been presented. Mr. Sherman said it had not. Mr. Hayes, of Chicago, a member of the committee, had made a report in favor of taxing United States securities and assets(?) for national debt, and this had not been printed. It was a very poor report, but it might be well enough to print.

On motion of Mr. Hendricks the resolution was amended to include Hayes' report, and passed.

Mr. Harris called up a bill abolishing the Southern Judicial District of California, and the Western District of each State or Judicial District. The bill passed.

Mr. Brown called up the bill to authorize the construction of a bridge over the Mississippi river at St. Louis. Passed.

Additional Foreign News.

NEW YORK, March 22.—The following is additional by the steamer from Liverpool, of the 10th inst.

The London press generally speak approvingly of President Johnson's 22d of February speech.

A Madrid dispatch says: The Peruvian war ship *Independencia* proceeded to the Pacific, to take part in the approaching struggle between Spain and Chile.

Montana News.

The Montana *Radicator* of 17th February contains the following:

We have been permitted by Col. Neil Howie to make the following extracts from a letter written to him by Carroll & Steel at Fort Benton:

"Indian depredations still continue worse than ever. On the evening of the 21, between four and five o'clock, a Piegan Indian—the son of Heavy Runner, a chief and one of the signers of the treaty, made when you were here—while the man had gone after hay, stole George Steel's bay horse out of the stable and took him to camp. Mr. Steel sent for him, and received for an answer, that if the whites wanted him to come after him. We have received warnings from the same camp to be careful about going out in town at night. This camp is on the Teton, ten miles from this place, and as most of the young men are out at war, it would be a fine time and place to attack them. Five hundred men could easily clean them out, and end the Indian troubles at once, by marching on their present position and then scattering out, so as to take in war parties as they come in. There are men now waiting to prospect but are afraid to try it, as the Indians would rob if not kill them. There are others who desire to open a coal bank on the river, but the Indians stand between them and their projected work. If the Government has not the authority or means to put an adequate force in the field, let the people take hold, as they have done before; and they can well pay themselves and at the same time open the country to themselves and other prospectors and men of [illegible]. Should five hundred men start out on their own account, they would not fail to capture fifty horses each, besides robes, pelteries, etc.; the horses alone being worth, at $50 per head, $1,000; and this can easily be accomplished in two months. We learn the following correct account of the murders reported sometime since, on the Yellowstone, from a squaw belonging to one of the murderers. Nine Blood Indians on the Yellowstone, met two white men who were mounted and had pack horses; the whites refused to allow the Indians to take the two from the southern of the men behind whom he rode and killed him, and simultaneously the other man also fell dead, having been shot by the Indian who rode behind him. To this act were then attaching a stage with short shot guns, for which white men are so justly hung by the people, or are Indians better than white men that they are to be thus indulged? They should be fought as they fight—kill when and where you can. If all the men who would volunteer to hate not horses to ride, the first fight would furnish plenty. It is reported that there are forty lodges of Bloods on their way to this vicinity. If this be so we are bound to have trouble. The Piegans are just as bad as the Bloods, upon whom they charge their depredations."

Bear and Elk Creeks still continue to attract attention. Mr. Ward, who came over early in the winter, prospects still improving. Notwithstanding the severity of the winter, many miners have continued to work there a greater portion of the time, some of whom have taken out large sums of money. He corroborates the statement, hitherto made, as to the wholesale jumping that has been going on in the absence of claim owners.

The Miners' Hospital of this city, projected and endowed by the business men of this city, including miners, promises to become a fixed institution in our midst, and certainly one whose benefits will be as much felt by the unfortunate, as anything in the power of human philanthropy and ingenuity to establish. Hundreds of prospectors, with scarcely sufficient means to keep them through the winter, have either been frozen or otherwise disabled, in laudable endeavor to open up new diggings, for the benefit of themselves and the whole country, that a few weeks of nursing and medical attention, at their own expense, would render entirely destitute; and it seems eminently just and proper that their more fortunate brethren should make provision for their being properly cared for in their misfortune.

THE REVIEW REJOICETH.—The last *Review* is greatly rejoiced at what it deems the prospect of an "irreconcilable split" in the Union party. That paper and others of like ilk, used to rejoice in the prospect of a *split* in the Union of States. They used to rejoice inwardly whenever news came of a *split* in the ranks of the Union Army, caused by rebel cannons. They of course would rejoice now in any sort of *split* through which the Democracy could creep into power. Union men might derive a valuable lesson for present use by remembering the attitude of Democrats on the *splitting* question during the late rebellion.

THE LOSS IS FOUND.—The statement made by some of Jimmy O'Meara's enemies, some years ago, that his learned pig had been *scavenged* by its proprietor at a time when he was hard up, proves to have been incorrect. The pig was seen the other day, following the stage from Albany to Salem. He exhibited such a degree of intelligence as to leave little doubt of his identity. We have heard it suggested that, since the pig made that twenty-five miles run, he could outrun Jimmy for Congress.

A CRUMB OF COMFORT.—Jeff. Davis sits gloomily in his cell, thinking himself and his plan of redressing grievances abandoned by all his old friends. How it will cheer his patriot heart to learn that his Democratic friends in Columbia county, Oregon, have not deserted him—that they still think his Democracy unimpeachable. Courage, Jefferson D., your friends are speaking out.

WILL HE WAVE IT?—Mr. J. W. Moffit, of Clatsop county, several years ago a member of the Legislature, has been selected by the Columbia county Democracy to bear their JEFFERSON DAVIS banner. Will he wave it, with that Jeff. Davis resolution inscribed on it?

HOSTETTER'S

CELEBRATED STOMACH BITTERS

READ AND REFLECT.

Make sure of Health. [illegible] how you can;
We can—or, 'tis an easy task,
Strengthen the Stomach, and that is
The Nerves, the servants of the brain,
The Liver keep in active play
And [illegible] from day [illegible]
Each organ aid, on Nature's plan,
Bread and [illegible] the system make,
And like a watch that's kept in
By [illegible] care, with [illegible] time,
The [illegible] tone and strength [illegible],
And thereby cheer the *spirits*, too.
"How," you inquire, "can this be done?
This Victory o'er [illegible] be won?"
"Hostetter's Bitters!" we reply,
Is Health's unfailing [illegible]!

As a means of counteracting the disordered and debilitated system, regulating every function of the internal organs, reviving the depressed [illegible], invigorating the constitution, and prolonging life, no [illegible] preparation [illegible] either of the past or the present time, has been so [illegible] and unhesitatingly [illegible].

HOSTETTER'S CELEBRATED STOMACH BITTERS

Against the vapors bred [illegible]
That fever-taint the heavy air,
Drink not [illegible] the water [illegible],
In prairies, woods or [illegible],
If sedentary toil you ply,
Nature you must assist or *die*—
For when debarred from exercise
For *fresh air and* wholesome [illegible]
Medicine [illegible] and intent
Is threatened evil to prevent!
And if you'd be relieved or cured
From ills that result the [illegible],
Hostetter's Bitters use—for note
They are the [illegible] ANTIDOTE.

To act at defiance the [illegible] of unhealthy soils, the [illegible] of miasmatic water, the [illegible] of crowded workshops and factories, and the [illegible] influence of sedentary employments, it is only [illegible] to be forearmed with

HOSTETTER'S CELEBRATED STOMACH BITTERS.

Dyspepsia's pangs, that rack and grind
The body, and depress the mind;
Agues, that as they go and come,
Make life a [illegible] martyrdom;
Colics and dysentric pains,
'Neath which the [illegible] man's vigor wanes,
Bilious complaints, those restless ills,
Nature [illegible] cured by drastic pills;
Dread diarrhœas, that cannot be
Cured by destructive [illegible];
Slow constitutional decay
That brings Death nearer, day by day;
Nervous prostration, [illegible],
Heralds of madness or the tomb;
For these—though [illegible] full—
Means of Relief at least we hail;
Hostetter's Bitters we proclaim,
As Health's most potent element.

Idaho News

The Owyhee *Avalanche* of the 10th contains the following particulars of the fight at Osgood & Inskip's Ranch

On the night of the 25th ult., Osgood & Inskip's ranch, on Cow Creek, was attacked by a band of probably twenty five savages. Including travelers, six men were stopping there—B. W. Inskip, Frank Osgood, J. B. Gibb, H. H. Carter, J. D. Osborne and Thomas ——. They kept in doors and were besieged all day and the fight was continued till 8½ A. M. next day. The Indians were believed to be well armed for most every man in with the bullets flew around and into the house. A little after the attack the Indians fired ... the premises of ... on the south. The Indians party think they silenced him & killed an old Chief. After discharging a heavily charged shot gun, they heard no voice for a few hours, and when again heard, the former commanding voice was missed. The last he was taken from the corral at 8 A. M. when the hay was set on fire and a wagon burned. Inskip lost one horse, Gibb two, and Carter one—the latter being killed and partly eaten. All Mr. Osborn went to Camp Lyon. During the forenoon five citizens came to the rescue, and in the afternoon Capt. White with about thirty soldiers arrived at the scene, but too late to effect any thing that day. Mr. Gibb, to whom we are indebted for these particulars and who participated in the affair, says it was a lively night and all done their duty.

On Thursday, the first inst, David P. Brown and Moses Mott arrived with two guns, were ... from the Owyhee Ferry with two ... of cattle and a wagon. When about eight miles from Inskip's they were attacked and killed and their bodies inhumanly mutilated. Brown's whiskers were cut off and his head mashed with rocks. Mott's head was beaten into a jelly and his heart cut out and carried off—we presume to Boise City to be present at the High Priest of the sort of sacrifice, as an earnest of fidelity to the cause. Messrs Gibb, Calder, Lockwood and four soldiers brought the bodies in to Lockwood's Ranch, in Jordan Valley, where they were buried on Saturday the 4th inst. Messrs Brown and Mott were from Humboldt but a few weeks previous to their taking off.

MINING IN PLINT DISTRICT.

Mr J A Lyle informs us that the Lone Jack ledge, a continuation of the Morning Star, discovered in February by John Boyd & Co., has been negotiated to Mr. Coleman at $15 000. The Excelsior lode, owned by same parties, has also been negotiated at same figures—money to be paid in June. Among new discoveries made this Spring, are the Forrest, Daylight, Judge Hays, Midas, Regulator, and Owyhee Chief lodes—all claimed to be rich in silver. Large quantities of ore are out at the different shafts, sorted and ready for crushing—at one shaft on the Rising Star, as much as three hundred tons that will go $150 per ton. Snow is disappearing fast and miners are preparing for systematic work this Summer. [Expect, in a fit of excitement, we'll carpet-sack our concern and set up under a willow in Flint when the snow goes off.]

WAR EAGLE MOUNTAIN DISTRICT.

Sloshing around on Wednesday, we made a tramp over War Eagle Mountain, took an outside view of a number of ledges and a thorough inside one of the Oro Fino. Work is being rushed along night and day on a number of ledges, and preparations are being made to commence on others. The Oro Fino, Minnesota, Silver Legion, Hays & Ray, Whisky Gulch, Trook & Jennings, and some others are being worked twenty hours each day. The Oro Fino is well known as a first-class ledge, but it may not be as well known that it is growing wider and richer as a greater depth is obtained. At one place, for nearly fifty feet in length, the ledge is nine feet in thickness of pure quartz—in each of which gold is plainly visible. The greatest depth at which quartz has been taken out is one hundred and eighty feet. Recently, specimens equal in richness to the famous Poorman and Trook & Jennings were found in this mine, and as Col. Fogus remarked, the mine is scarcely prospected yet. It is certainly worth millions of dollars.

Report of Investigating Committee.

The Committee who were named by the Chairman of the Union meeting of the 22d inst, report as follows:

They have, at the request of a large number of Union voters, decided to go on with the investigation, which it was the intention of the Union men attending that meeting to authorize. They will only refer to the resolutions offered by Gov. Gibbs and Dr. Watkins, which were voted down at the Precinct meeting by a large vote of men who had no right to vote there. These resolutions were to confine the voting to those who had voted for President Lincoln, who had not voted for McClellan, and who were actual residents of the precinct.

The facts so well known, are sufficient in their opinion to have created the dissatisfaction so generally felt. On the subsequent day a call was made for a meeting of Union men to remedy the wrong. Many had been done. At that meeting the same turbulent disposition was shown by the same crowd that carried the election, as the conclusion think fraudulently. Resolutions were then offered to appoint a committee to investigate the reported frauds in the election, and to suspend any further action until the committee report. These resolutions were voted down, although evidently almost unanimously voted for by all those who had a right to be there.

The evidence that we have obtained of fraud, is to us conclusive. We have a list of the voters, 345 in number, who voted at the southern precinct of this number, 168 are found in the Directory and on the poll-books; the remainder are not found anywhere, and the number of 182 are believed by us, to be in great part fraudulent.

Over two hundred names of well known Union men in the South Portland precinct, are not on the list of voters. From this fact we believe that the election would have gone exactly contrary to the result of Tuesday. We have the testimony of numbers of respectable men, that many Democrats of their acquaintance on ... to voting at the Union precinct ...

The same state of things existed at the polls of both precincts. Men were carried publicly from poll to poll, and we have ... to believe that many persons voted twice, once at each poll. So disgraceful were the proceedings at the precinct meetings, that a very large number of Union men withdrew from the Convention in disgust, declining to vote or in any way to have anything to do with the election at the Southern precinct before voting had commenced, and at the Northern one within twenty minutes of the opening of the polls.

Mullan Road Meeting.

In pursuance of a call signed "Many Citizens," a meeting, composed of the Farmers, Merchants, Mechanics and Capitalists of Walla Walla County, assembled in the Court House in the City of Walla Walla, on the 19th of March, 1866, and organized by appointing F. P. Dugan Chairman and J. H. Blewett, Secretary.

W. W. Johnson, in a brief speech, explained the object of the meeting.

On motion of the Secretary, an Executive Committee, consisting of E. S. Baker, D Shelderman and Louis Schwabacher, was appointed to devise and execute means for the opening of the Mullan Road at an early day.

On motion Thos. F. Page, A. Kyger and A. H. Reynolds were appointed a committee to solicit subscriptions and collect money for the furtherance of the above object.

A. Kyger was nominated and elected Treasurer of the Mullan Road Fund, whose duty it shall be to receive all money raised for opening the Mullan Road, and pay them out by order of the Executive Committee.

W. W. Johnson offered the following, which was adopted:

Resolved, That we invite the citizens of San Francisco, Portland, Dalles, and other places interested, to co-operate with us in our endeavor to open the Mullan Road as a route for supplies for the country known as the Blackfoot Mining Region.

It was ordered by the meeting that the Secretary correspond with the Merchants' Exchange, of San Francisco, citizens of Portland, Oregon, S. D. Smith, and others friendly thereto in furtherance of the object.

On motion, the Secretary was instructed to furnish a copy of the proceedings of this meeting to the Walla Walla *Statesman*, Portland *Oregonian*, and San Francisco *Bulletin*, for publication.

On motion, the meeting adjourned, subject to the call of the Executive Committee.

FRANK P DUGAN, Chairman.
J. H. BLEWETT, Secretary.

"Hoosier Dan" and Williams, the Umatilla robbers who escaped from the jail a few days ago, have been recaptured within a mile of their former place of confinement. They were found secreted under an old log house.

The Snakes at the Dalles have indicated their choice of N. H. Gates as candidate for Congress. Capt. Theodore J. Ickeram, A. Q. M., U. S. A., accompanied by Capt. J. W. Prior as his clerk, has gone to Fort Boise under orders to take charge of the Quartermaster's Department of the Boise District.

The Dalles municipal election will take place on Monday next. The *Mountaineer* opposes the policy of making the election a partisan one.

The *Mountaineer* of yesterday publishes some extracts from a letter dated Warm Springs 12th inst., containing the following:

Mr. Scott, of the cattle ranch, from across the river (Des Chutes) has just arrived, accompanied by a Mr. Shorwood who is on the track of the horses stolen from the Canyon City road. He has tracked them to the head of Willow Creek, and they are gone on to the head-waters of Crooked River.

Three nights ago, fifteen Snake Indians went into the camp of Evans & Hardisty and drove off about six head of horses belonging to Messrs. Scott & Ritchie, and took everything they could find in camp. They drove the horses off to the head of Willow Creek. Mr. Scott and party followed them the day after, and found that the horses were driven in the same direction as those stolen from the Canyon City road, but conclude that there was no use in continuing the pursuit as the party was too small.

We learn that Wm. Sanborn, who was cut by Nelson Hauxhurst, at Salem, on the 20th is getting worse and is expected to die. The wound inflicted turns out to have been much deeper and more dangerous than was at first supposed. Hauxhurst is still in confinement and it is understood that Judge Peebles will not admit him to bail while Sanborn remains in his present condition.

S. T.—1860.—I.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, dizziness after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

Which are now recommended by the highest medical authorities, and warranted to produce an unmistakable beneficial effect. They are exceedingly agreeable, perfectly pure, and almost supercede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars, see circulars and testimonials around each bottle.

Beware of imposters. Examine every bottle. See that it has our private U. S. Stamp immutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or ... Bulk, is an imposter. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the U. S. Law, and will be so prosecuted by us. We already have our eye on several parties re-filling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c. is incredible. The simple trial of a bottle is the evidence as a present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

Dr. Hostetter's Stomach Bitters.—The operation of this preparation upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all the forms yields to its control and invigorating properties, and it is recommended to medicine, especially by the cares and duties of maternity, as the safest and best tonic they can probably use. In all the crisis of female life it will be found eminently useful, and elderly persons will derive much more benefit from it than from ordinary stimulants. INTERESTING DISCOVERY.—A recent number of the London *Friendly Treasury* has an interesting article entitled "A Week in Jerusalem," from which we extract the following: "One recent discovery in Jerusalem, which I believe has not been published, was most interesting and may prove important. It was pointed out to us by Bishop Gobat, through whom it has been brought to light. Immediately under the southwest corner of Mount Zion, on the steep slope leading down to the valley of Hinnom, is the English cemetery. The Bishop has recently been leveling a portion of this. During the work the rock which forms the western face of the ground was laid bare and exposed a series of steps hewn in in its side, steep and much worn. Thirty four of these have been uncovered, and it is impossible to say how many more are buried beneath. In no other spot do we observe a more striking example of the enormous amount of ruin and debris which for three thousand years has been gradually filling up the valleys in and around Jerusalem. We have revealed to us the steepness and formidable approaches to the fortress of Jebus, which, in the very heart of the country, bid defiance to Israel for four hundred years, and was only captured by David when he proclaimed, "Whosoever goeth up to the gutter and smiteth the Jebusites—he shall be chief and captain."—(2 Sam., 5.)

PHIL. SHERIDAN.—Gen. Sheridan was Halleck's chief quartermaster in Western Tennessee in 1862. The following story is related of him:

During the siege of Corinth an incident occurred which served to illustrate this combative disposition, while at the same time it showed a thorough kindness of heart. A train laden with supplies was pushing up from Pittsburg Landing to the front; the road was very rough, and the warm sun and heavy loads so fatigued the animals that a leading mule of one train fell down exhausted. The heartless driver descended from his seat and, beat the poor dying animal cruelly, using the most fearful oaths. Sheridan came up, and seeing the state of affairs, called out to the driver to desist. The latter looked up, and seeing the unassuming man who ordered him, in a fierce tone yelled back: "Stand back! or I will wallop you worse than the mule." That was enough. Quick as the bound of a tiger Sheridan was off his horse, and with a ringing blow he felled the burly driver; then taking the whip used to beat the mule, he gave the crestfallen John a castigation he will remember as long as he lives.

COST OF WAR VESSELS.—The Secretary of the Navy has sent to the Senate the records of the Naval Board convened in Brooklyn in June last to examine the claims for the cost of our war vessels above the contract price. Awards were made for thirty-seven wooden double enders amounting to $814,974; for six iron double-enders, $350,848; for three gunboats, $100,854; for the *Miantonomah*, $35,862; for the iron-clad, propellers *Minnesota* and *Winnebago*, $69,813; for the iron-clad *Onondaga*, $85,203; for six river and harbor monitors, $658,533; for the monitor *Comanche*, $170,-593, with $30,000 more for this last named vessel, claimed as lost by the contractors. These awards are all awards in addition to the sum and aggregate specified in the original contracts.

The religious beliefs of the deceased Presidents of the United States, as indicated by their attendance upon public worship, and evidenced also by their writings, may be summed up as follows: Washington, Monroe, Harrison, Tyler and Taylor were Episcopalians; Jefferson, John Adams and John Quincy Adams were Unitarians; Jackson, Polk and Lincoln were Presbyterians; Van Buren was of the Dutch Church. The surviving Presidents are Fillmore, Unitarian; Pierce, a Trinitarian Congregationalist; Buchanan, an Episcopalian, and the present Chief Magistrate, Johnson, who is a Presbyterian.

FINANCIAL AND COMMERCIAL.

PORTLAND, March 23, 1866.

We have to-day to announce the usual activity in all branches of trade, a very decided improvement in the sales for manufactures for Montana, and our wholesale dealers and jobbers have a confidence in the future quite encouraging. The freight of Mining machinery to Montana will be very serious to trade with us, but it is held by the friends of a change in the financial basis of the coast, that the trade will be light while the gold currency is the only currency of the State. The principal argument advanced and based upon the fact that the currency of Montana is the Federal currency, with which the merchants there can make money by buying cheap, and bargain with the owners of the Missouri and Kansas boats, there with the merchants of this State and Portland. It is thus will regulate the freight, however, and we deem it of no particular importance, as being no more likely to interfere in this case than in the carriage of the Pacific and Atlantic merchandise.

Money continues active and commands 1@1½ per cent. per month on San Francisco, 1½@2 per cent. Portland, 2@3 per cent. Boise City, and New York by telegraph, 3@3½ per cent.

Exchanges are still advancing, selling to-day at from 7½@7¾ per cent.

The freight of wool is also moving in the direction of the interior from various points on the Columbia river, and the Walla Walla are making an effort to open the Mullan route, which is at present impassable, and which most people deem incapable for all practical purposes. The rise of the Fallon are advertising a new route open from that place to White Bluffs.

It is the opinion of many that during the latter part of the year the latter route is the most advantageous. It is near the Columbia at the Falls, and takes a direct course to White Bluffs and Fort D'Orville, to the Jocko section, and by the partial map one by reference to the map. With the steamer now completed on Pend d'Oreille Lake, as it will be by the 15th day of April in all probability, this route must become the favorite one by which travelers can readily reach the new El Dorado.

The distance from the Falls to White Bluffs is 110 miles by land; thence also run regularly on the Columbia) from the 160 miles to Pen d'Oreille Lake; thence 65 miles across the lake, about 71 miles by boat from Cabinet Rapids to Thompson's Prairie on Clark's Fork, which will be navigable at all time to prevent detention, as a portion of the route is over the 116 miles, making a total of 506 miles from the Falls to Montana.

This is a little longer than the one which is calculated to land shippers a little sooner to the market in less than four days, and have their purchase delivered to them inside of forty days, to say the least, and at very low rates.

By the inauguration of a co-operative association for running boats over the routes leading from the Columbia river to the parts of the interior, which present facilities, being well supplied with wood, water and grass, we cannot see any reasonable to prevent freighters from objecting all they can about rates that would pay them much better than the rates at present from the Sacramento river to Nevada, and elsewhere. We shall revert to this article.

A letter, also received at Salt Lake by a gentleman recently in this city, states that the rates of freight from St. Louis to Boston the present season will be as follows:

Before the 15th of June, per ton, without stopping ..... 15 cents;
" " " " " prior to June 10th, per ton ..... 18 "
" " " 1st, " " ..... 20 "
" " " May 15th, " " ..... 21 "

The dispatch was signed by J. G. Copelin, agent for the transportation company. So it will be seen that prices on the Missouri will not be so much reduced as many have supposed.

The merchants here have contributed $5,000, and the merchants of San Francisco have contributed $40,000, in the aggregate $11,225, to open the wagon road "long Clark's Fork, which, when opened, will be a free road, and available to travel during all seasons—hence, the merchant of Montana can as safely visit Portland and San Francisco in winter to make his purchases, as can the people of Idaho. Stage lines and fast express lines, and all like corporations, will speedily follow, and we may say that the question of supplying that region pretty nearly decided in favor of the Pacific side. The money subscribed will be disbursed by Mr. Moody, of the Dalles, and Mr. Ripley, of this city, both of whom are gentlemen well known to community as in the highest degree worthy of the trust reposed in them. We understand that work on the proposed section will be immediately begun. There will be no obstacle in the way of travel to Montana by the route as it now is, in summer, but for whether it is to be carried that road be opened to get through the Bitter Root mountains. The merchants and business men of San Francisco having concluded that the Columbia river presents the greatest inducements for shipments to the vast mineral districts of Eastern Oregon, Idaho and Montana, we are inclined to believe that Utah can also be supplied better, and at less rates, by this than by the Colorado river. Freights will be delivered at Salt Lake, the coming season, from Portland, at fourteen cents per pound, and possibly less. The Hudson's Bay Company are shipping from Victoria to Colville, at this time, by the Columbia river.

The London *Economist* of January 6th, has a review of the coal question of England, which we have perused with considerable interest, as it contains many well arranged and indisputable facts applicable to this part of North America. It is known that coal and iron makes England what she is, and her iron depends upon her coal.

There is very much iron ore, and an abundance of coal and iron-stone in Oregon and Washington Territory, in close proximity to our harbors, and there being no more suitable lities for the attainment of industrial greatness than these, we have a great anxiety to see such of our resources developed as speedily as possible. The amount ex-

Published by order of the Common Council.

H. L. MEEKER,
Auditor and Clerk of the City of Portland.

Portland, March 16th, 1866. d10t

Notice to Contractors.

SEALED PROPOSALS will be received at the office of R. R. Thompson (in Cree's Building, adjoining the office of the O. R. N. Co.), in this city, until Thursday, the 22d day of March, 1866, at 3 o'clock P. M. of said day, for improving First street in said city, between the centre of Vine street and the north line of Madison street, in time and manner provided by Ordinance No. 302, passed by the Common Council of the City of Portland, and approved March 14th, 1866.

Corporate proposals will be required:

First—For moving all portable material, &c.; from and grading the street as required in said Ordinance.

Second—For furnishing material and constructing the curbing and side walks in the manner provided by said Ordinance.

Third—For furnishing material and completing the Nicolson pavement on said street, and for furnishing material and constructing the same improvement of said street at certain intersections where cisterns have been located in said street, as provided in said Ordinance.

Contractors will be required to bid separately upon the work of the said improvement on each half of the street with the object of improvement of intersections, which is obtainable to each block of lots abutting thereon.

Specifications and Drawings may be seen at the office of O. W. Burrage, City Surveyor.

The Committee reserve the right to reject any and all bids deemed unreasonable.

Bonds will be required for the faithful performance of the work.

Portland, March 15th, 1866.

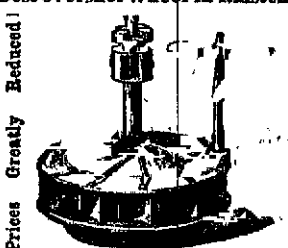
WATER WHEELS.
POWER PLEDGED EQUAL
TO THE
Best Overshot Wheel in Existence.



THE
American Double Turbine Water Wheel

IS NOW MANUFACTURED BY THE OREGON IRON Works, in the city of Portland, and orders for the same can be filled immediately. We have a small supply of the different sizes, from 10 inches in 48 inches in diameter. That we may know the proper size of wheel you require, measure your water in the following way: Take the width of the stream, the average depth, and the distance it flows in a minute.

All the wheels now in use give universal satisfaction. Both the construction of the wheel and its performance, commend it to the better judgment of all minds capable of appreciating the highest development of mechanical construction. Therefore it has conquered the most violent opposition.

This wheel is especially adapted to mining purposes. It is light, and can be easily packed into the mountains. Wheels weighing from 100 to 200 pounds will yield from 20 to 40 horse power, under a head of 15 or 20 feet. They are the cheapest wheel to set up known, as they are so arranged as to produce the greatest power possible from the water used.

The prices of these wheels have now been reduced to the ability of all. Come and see them or send for a circular to

"CONSTITUTION WATER,"
THE ONLY REMEDY FOR DISEASES OF THE
BLADDER, KIDNEYS,
Gravel, Dropsical Swellings,
GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS ATtended this invaluable medicine renders it the most valuable cure ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system. In fact, it stands unrivalled as a remedy for the permanent cure of the maladies above-mentioned, and also—

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS,

And in every disease may was connected with the disorder or decay of the PROCREATIVE FUNCTIONS. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once refreshed, revivified and built up. Will may this celebrated medicine be called the

MEDICAL WONDER.

The stooping trembling victim of depression and debility becomes a new man, he stands erect, he moves with a firm step, his mind, which was previously sunk in gloom of an almost idiotic apathy, becomes bright and active, and he goes forth regenerated, conscious of new vigor—The medicine now is the CONSTITUTION itself, and restores it to its normal condition

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER,
STRANGURARY AND DISEASE
ING OR PAINFUL
URINATING,
CALCULUS, GRAVEL,
BRICK DUST DEPOSIT, AND MUCOUS
OR MILKY DISCHARGES AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give praise to

ALLEN'S LUNG BALSAM!

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS, Asthma, Croup,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts, gives strength to the digestive organs, brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION! IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it if only taken in time.

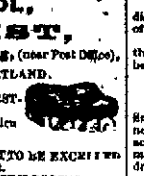
TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



617 KEARNEY STREET,
NEAR COMMERCIAL,
San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs are speedily treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, reduced and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid stateof thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying practices that they are cured ere and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days. Impose upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Weakness, the consequence of self-abuse. This solitary vice, or deprivation of sexual indulgence, is practised by the young of both sexes to a most alarming extent, producing, with unerring certainty, the following train of morbid symptoms, if not combatted by scientific medical measures, that hollow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, unwillingness about the loins, weakness of the limbs, confused vision, bloated habit, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent
